

ISOPE-2018 Sapporo
2018 Asset Integrity Symposium
First
CALL FOR PAPERS

At
The 28th Annual International Ocean and Polar Engineering Conference
Sapporo, Hokkaido, Japan, June 10–15, 2018

The fourth symposium on Asset Integrity will be held at the annual ISOPE-2018 Conference, Sapporo. Attention to infrastructure and equipment related to Oil & Gas, Alternative Energy and Shipping has never been more intense, as their importance to economy and safety have increased, along with the potential of failure due to aging, corrosion and other factors. The challenges and costs of asset integrity evaluation and repair are expected to grow in the future as developments move into more challenging environments. The purpose of this symposium is to discuss the challenges and share the state-of-the-art knowledge in surveillance and integrity management for the broader energy and marine industry. This symposium will cover all aspects of science, technology, and applications related to monitoring, inspection, rehabilitation and leak detection methodologies.

The organizing committee cordially invites scientists and engineers from academia, industry, and regulatory authorities to share their latest advancements.

Special ISOPE room rate at ISOPE hotel room rates starts from \$80+/night.

Suggested Technical Topics

Asset Integrity

Life cycle evaluations,

Operational readiness (installation, preservation)

Advances in inspection & monitoring

New technology & tools, including digitalization

Best practices for prevention, monitoring, maintenance, repair and rehabilitation

Risk assessment and remaining life prediction

Case Studies of Loss of Containment Investigations

Focus Sessions

- *Offshore, Marine & Infrastructure Integrity*
- *Corrosion prediction & prevention Integrity Surveillance, Monitoring & Data analytics*
- *Risk Based Inspection*
- *New Integrity Challenges*
